

## ZEUS' WOOD & STONE

Ancient forests and proud rocky peaks are the elements that dominate Mount Parnassus.

Thousands of years ago the great God Zeus destroyed all of humanity with an immense flood. The people that he favoured to survive, Deucalion and Pyrrha, found their resting place in Mount Parnassus. Upon asking the God for children he instructed them to take stones from that very mountain and throw them into the woodlands. These were transformed into people and so the human race was created.

Premium wood and exquisite stonework, these are the materials we use to design and develop your luxury chalet. The rectangular pine logs are of the highest quality and create the ideal temperature and climate - warm in the winter, cool in the summer. Thick beams and elegant stone finish incorporate harmony, functionality and style.

Minimal design is combined with all the essential pleasures – sauna, a billiard table, a fine drink, a cigar and the entire forest sheltering your privacy.

This is where myths and legends from ancient Greece were born and this is where you can unquestionably embrace your exclusivity.

---

## APOLLO'S LIGHT

Mount Parnassus is the birthplace of Apollo, the God of light.

On a carefully chosen location, this exceptional light sets the scene for each chalet and is perfectly shared amongst its spaces. Our chalet management offers all the perks of a boutique hotel combined with a generous amount of personality and bespoke interior design.

Gaze at the magnificent views of an unparalleled mountain panorama and let your mind escape. In this luxury, unique retreat, you may just feel that Gods still live here.

---

---

## DIONYSUS' FOREST

Dionysus, the God of wine lived in these lush forests, where festivities in his honour were held; always lively, loud and joyful.

Uniquely situated, we are just a stone's throw away from the ski resort and the beautiful village of Agoriani. Here our exclusive chalets, blend the efficiency of modern technology, with the beauty, warmth and character a log home should provide, all within the balance of nature.

---

---

Mount Parnassus lies just 180 km north of Athens (less than 2hr drive) and is a very popular vacation spot all-year round.

Throughout the winter season, Parnassus is an experience not to be missed. Its lifestyle includes numerous clubs, restaurants, spas and boutique hotels. Parnassus is inviting for snowmobile activities, skiing and snowboarding; with numerous ski & snowboard schools it is rated the best ski resort in Greece. During the summer months, Parnassus is ideal for tranquil hikes through breath-taking paths, picnics, mountain climbing, paragliding, ATV trail rides, and mountain biking. In nearby areas one can also visit numerous quaint fishing villages for a taste of fresh fish and can also enjoy a swim in crystal blue waters.

Beneath the slopes of Mount Parnassus, one passes through several small towns and villages such as the world-renowned Delphi. This ancient site is visited by thousands of visitors each year.

Perched on top of a rocky ledge on the slope of the mountain, Arahova is the first town one passes through upon entering the Parnassus area. Its narrow streets and cobbled lanes are lined with trendy restaurants and cafes, as well as numerous tavernas where visitors can taste the traditional local dishes. Shopping is a special treat too, with a variety of clothing boutiques, sport shops and local handicraft shops. Arahova comes alive at night with its popular bars and nightclubs, most of which remain open till early morning hours.

The over crowdedness of Arahova during the last few years has led to the most rapid growth of the neighbouring valley, Livadi. Due to a great demand for more accommodation, tavernas, shops, etc., construction is currently booming in Livadi, which is only a 10 minute drive from Arahova, and located even closer to the ski centers. Upon reaching the outskirts of Livadi, the road ascends into a forested area currently settled by several private homes, as well as the exclusive Elatos Resort Hotel. After continuing along the forested mountain road for 9 km, one arrives at the traditional mountain village of Agoriani. The area surrounding Elatos Resort and the area down to Agoriani is without a doubt the most optimal location for an investment. Palioelatos is the jewel of this area and this is where CONTEC is currently developing a project of 11 to 15 log homes.

Our objective is to offer our clients not just any chalet... but an imaginative gateway to nature, by creating beautiful, unique and long lasting homes.

CONTEC Construction Technology S.A. guarantees professionalism of the highest standards and aims for continuous and never-ending improvement. We are conscious of competitive price, high quality workmanship, as well as a stellar after sales service for a total commitment to customer satisfaction.

Our technical department consists of a team of superior professionals skillfully trained with profound expertise in construction and extensive knowledge in traditional and advanced wood technology. Combined with our Property and Research Department (responsible for the discovering and purchasing of only the very best locations), CONTEC is able to offer its clients the finest chalets, as well as great investment opportunities.

We are currently focusing our attention on Mount Parnassus, an area which for the past few years has been the sight of enormous growing interest and tremendous expansion.
